Castest Scenarios For Als

CASTest guidance for instructors The CASTest represents the final assessment on the ALS2 course. It tests candidates' performance in the following areas: recognition and intervention in the management of a simulated patient at risk of cardiac arrest demonstrating knowledge and application of current resuscitation guidelines

CASTest guidance for instructors

Finally the evaluation was limited to CASTest scenario 1. Although the other CASTest scenarios use the same performance criteria, the performance of the tool with these CASTests has not been demonstrated. The strength of the CASTest score is the ability to rate candidate's performance with more precision than the existing binary pass-fail ...
