You Could Once Buy A Volkswagen-Powered Boat From Your ...

You mentioned (you thought) a Lister 5R3 in a previous boat. That probably meant a boat from round about the 1970s era, when they were a very common fitment. The difference with Lister SL, SR & ST series engines is that they are air cooled units, whereas for many years now the trend has been to fit water cooled engines.

Which diesel engine would people recommend for a ...

Before anyone responds with a "****, I previously had an early NA VW diesel in a boat for years. It was an excellent engine and had no problem powering my 23,000 lb. sailboat. I have no experience with the TDI's though and am looking for some pointers on what I need to pull out of the donor car to make it all work.

Best TDI engine for a boat - TDIclub Forums

Power Boats: Sizing the Engine. Previous page: Boat Design Parameters, Part 2 Displacement Boats. For a given displacement power boat the LWL is constant (not true for sailing boats with big overhangs: when they heel, their LWL becomes longer and they can move faster then when upright; that is valid until the excessive heel causes too much loss in the effective sail area, spilling the wind).

List of Volkswagen Group diesel engines - Wikipedia

When you're buying a new boat, or repowering an existing boat, you may need to decide whether gasoline or diesel is right for your needs. If you're not as familiar with diesels as you are with gas engines, and still think of diesels as smoke-belchers, just be aware that there's been a lot going on over the past several years when it comes to diesel engine technology for marine applications.

Boat-builders and engine makers spend millions of dollars each year promoting bass boats powered by very large outboard engines. Ranger Z520C. Anglers engaged in tournament fishing are going to want the biggest engine on the transom that the boat is rated for, in most cases, and that means from 225-hp to 300-hp.
