A webquest is a guide for students to search for specific information on the internet very effectively. For example, students may be asked to serve as the caretaker of a National Park, and they might be encouraged to find information on animal species - native and foreign, care tips, eating habits, natural habitats, steps for conservation, etc.

### 8 Ways to Use Technology to Engage Students Better | HuffPost

"Good" technology doesn't need a 463-page user guide or perform hundreds of different functions with mediocrity; it should be focused on a set of core features that are designed and coordinated seamlessly with other systems/solutions. L-Tron's 4910LR Driver's License Scanner, for example, has one button - that's it.

### iPhone User's Guide on Good for Enterprise

User Guides. A user guide is essentially a book-length document containing instructions on installing, using, or troubleshooting a hardware or software product. A user guide can be very brief—for example, only 10 or 20 pages or it can be a full-length book of 200 pages or more. While this definition assumes computers, a user guide can provide operating instructions on practically anything—lawnmowers, microwave ovens, dishwashers, and so on.

### Online Technical Writing: User Guides - PrismNet

As the name implies, User Guides are written to help people understand an software application or IT system. They are also called User Manuals. When writing a User Guide, use simple language with short sentences. This writing style helps the user understand the application. Our User Guide templates can be used to create user guides, user manuals, getting started guides and other types of technical documents. A User Guide is an online or printed book that describes how to use a software ...

Lastly, the most important thing to consider in making the Manual is the content. Lay-outing and design are also important, but without good, informational and understandable content, the Manual will lose its purpose. Manuals are a form of communication. Thus, it needs to be understood by readers spanning from varied demographics and background.

Whether creating/identifying a problem is counterproductive depends on how one defines what one is doing and whether the technology fosters it or just turns out to be a plaything. That can't always be known in advance. When I was using a typewriter and carbon paper, the advance was from manual to electric to electronic.
