Section 15.3 (page 418) 15.14 The first half of a proof is given. 15.15 We give solutions for 1, 4, and 7. 15.17 We first show a proof of 15.17 under construction and then give the completed proof. This is very helpful to students trying to understand how to give such proofs. 15.21 We give an informal proof.

A list of Hints and Solutions for LPL - Studylib

The first is to help you learn a new language, the language of first-order logic. The second is to help you learn about the notion of logical consequence, and about how one goes about establishing whether some claim is or is not a logical consequence of other accepted claims.

Language, Proof and Logic

Language, Proof and Logic is an application offered by The Openproof Project, CSLI, Stanford University. Some computer users want to remove it. Sometimes this can be difficult because uninstalling this by hand takes some skill related to removing Windows applications by hand.
