E&M Documentation Requirements: A Look at 'Review of Systems'

The Review of Systems (ROS) was the most frustrating aspect of charting as an intern. Documenting at least 10 elements from systems seemingly unrelated to the chief complaint took as long as a physical exam and was much harder to remember. For efficiency, many of us include any pertinent positives and negatives in the history of present illness (HPI) and use an ROS caveat such as "10/14 ...

Review Of Systems Documentation Example

The Review of Systems (ROS) is an inventory of specific body systems performed by the physician in the process of taking a history from the patient. The ROS is designed to bring out clinical symptoms which the patient may have overlooked or forgotten. In theory, the ROS may illuminate the diagnosis by eliciting information which the patient may not perceive as being important enough to mention ...
