The Favor Megan Hart

Megan Hart has always had a gift for writing the most naked, broken, beautiful characters. People with issues, with struggles, with blood rising from wounds that never heal without a scar. THE FAVOR takes on the most disturbing of subjects, child abuse and neglect and the claustrophobic intimacy of families.

The Favor is captivating, and at times heartbreaking work of contemporary fiction. I was apprehensive to read this, because I know Megan Hart's other novels written in a different genre, pack a punch. This novel completely blew me away. I was not expecting it to be so good

THE FAVOR by Megan Hart

Hart's book has an interesting premise, and for the most part, it's an absorbing read. However, a narrative that moves jarringly from past to present and an overly melodramatic buildup to a bombshell secret that, in the end, seems fumbled muffle the emotional impact of crucial events and weaken the success of the book.

The Favor isn't your typical Megan Hart book, (not that anything she writes is typical) it's not a romance but it does have a romantic "element" but it for me it also had a mysterious and suspenseful element. This book is about family and love but it's also about secrets, regret and forgiveness.
