Addressing these issues requires targeting "less, but better" meat consumption. In Germany, people eat about 60 kilograms (132 pounds) of meat per person annually. The amount is even higher in ...

Industrial meat is spreading disease, killing workers ...

Because the way I think about this long-term, presumably a firm like Cargill can win the future with alternative "meat" in a way that a cattle rancher can't. So I'm curious what the position is of ranchers on this kind of investment from a firm like Cargill or other firms that are sort of hedging their bets on the future of meat.

The Future of Meat (Ep. 367) - Freakonomics Freakonomics

If for a single year the government removed its \$38-billion-plus in props and bailouts, and required meat and dairy corporations to play by normal capitalist rules, it would destroy them forever....
