I was reading through my owners manual on the 2002 Kia sedona I just bought. According to the owners manual when it comes to changing out the transmission fluid, you just need to remove the drain plug, drain out the old fluid and replace with new. It gives the type that should be used and the amount that should be put in. So according to the owners manual a drop of the pan either is not needed ...

...

Why should I expect to operate something without learning anything about it? But "reading the instruction manual" is also good advice on a metaphorical level. One of my happiness-project resolutions is to "Ask for help," and I'm always struck by the fact that 1) I find this surprisingly difficult to do and 2) whenever I do ask for help, it's hugely beneficial.
